SUBJECT: Request for NIS Maps

TO:

1. The mission of the 3428th Technical Training Squadron (DSIATP) is to provide advanced instruction in the area of imagery interpretation to members of all military services and personnel from several civilian agencies.

2. A block of instruction is offered in Geography which our instructor is currently attempting to update and improve.

3. We are interested in obtaining copies of certain maps and two negatives of pictures contained in the NIS published by your agency. The maps are to be used by students for study purposes and in the completion of projects assigned as a part of the geography course of instruction. The two negatives requested are for the purpose of developing vu-graphs to be used in conjunction with the instructor's lecture.

4. Any assistance your agency can provide in supplying the quantity of maps and the two negatives requested will be greatly appreciated by the instructor.
